

How Paul earns

\$249,615

a year, from twelve days of work

Twelve days at a state fair.
15,000 responses. 2,080 enrollments.

Your Payment Guardian

ypg-member.com

Are you struggling financially or is your financial situation worsening?

When I was in college, I remember reading a book about earning a great fortune. This is what it said:

“If you want to make a lot of money in a short amount of time, find a product that is inexpensive, needed by most of Americans, that everybody wants, does not require selling, pays you every month in recurring lifetime income, and does not require a lot of time, work or money to set up.”

I remember thinking, “Yeah, right. There is no such perfect product”.

Well guess what? I found that product and I even bought the company.

Did you know that over 80% of Americans could use help with financial, legal, health, and personal problems, advice and concerns (US News and Reports / Legal Services Corporation) and 76% believe more income would solve most of their problems? (CNN News)

This is the only company I know of that is devoted to helping people with their financial, legal, health and personal problems, questions and concerns.

After buying the company I wanted to greatly increase the membership, but instead of spending hundreds of thousands of dollars on advertising, I decided to give that to our members by making them part owners of the company.

This is how I did that.

I pay members 25% of every membership payment from the people they refer to us. They receive this recurring income each month for as long as their referrals remain members, giving them an ownership stake in the business they help build. Because of the benefits we offer, members rarely leave.

Imagine that. Earning a lifetime income by helping people. No selling, just refer them to our landing page.

In the next pages you will read about Paul, our number one earning member that earns \$249,615 every year in recurring income, and he did it in only 12 days. You will see the sign holder he used and on the last page is the sign he placed in the sign with his 7-digit code number at the bottom. His take ones were the same as his large sign only smaller to fit in the holders.

Many members use this same sign at festivals, fairs, local events, shows and any place where people gather or attend. I urge you to go to our site at www.ypg-member.com and see how other members are earning a great income. I hope you join us and I will personally help you any way I can. How Paul earns \$249,615 a year from 12 days of work

He was 35, laid off, and not a salesman.

Paul was 35 years old and drove a forklift at a local warehouse loading building supplies on trucks when he was laid off from his job. He had a hard time finding a new job because he only had a high school education and he had been driving a forklift for over fifteen years. His education and skills were limited so he started volunteering at different places hoping it would help him find new employment.

He had just started to volunteer at his state fair when he read about Your Payment Guardian. It was perfect for him. He was not a salesman, and he was a little bit of an introvert, but all he had to do with Your Payment Guardian to earn an extra income was to advertise the opportunity of joining their program. The benefits of membership were fantastic, helping people with their financial, legal, health and personal problems, questions and concerns, plus the ability to earn an additional income by referring people to the company.

Your Payment Guardian makes earning a lifetime income simple and easy. Just generate an inquiry—they handle everything else, including enrollment, training and member servicing.

This is how it works

When you join Your Payment Guardian, you will be issued a 7-digit Identification Code that you put on all advertising material for enrollment.

Simply drive your warm inquiry to the Landing Page which explains the entire program to the inquiry with a call to action. A warm inquiry is someone that has expressed interest in their program. Everything is done for you after you generate the inquiry.

Everyone that joins using your ID Code will be permanently assigned to you, and you will earn income from that account for as long as they remain a member. Cancellations are almost non-existent because if they drop out, they will lose everyone they enrolled.

Imagine that. Getting paid a lifetime income for helping people. No other company pays you so much for so little work.

What Paul did

Paul quickly joined Your Payment Guardian and took his idea to the people in charge of the state fair. His idea was to place a large poster stand and sign at the fair telling people about the opportunity to refer other people.

The 5-foot stand Paul used has 5 plastic holders that hold around 1,000 take-ones. This will easily be used up at any setting you put your stand in because everyone will want to know how you can make so much money every year by helping people with their problems. You must constantly monitor your stand and replace the take-ones or risk losing potential members. Because his job was working in the ticket booth it was the best place to erect the sign. This way he could keep watch over the sign and keep the plastic holders full of take-ones.

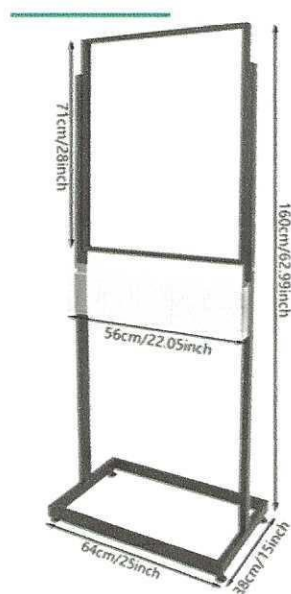

He was given permission to set up his sign near the ticket booth.

To monitor the sign, Paul volunteered to work every day of the 12-day fair, from 10 AM to 10 PM. His display generated more than 15,000 responses and led to 2,080 enrollments.

Paul is now our highest paid member and is no longer looking for a job.

5 FOOT SIGN HOLDER WITH 5 TAKE ONE HOLDERS

Below are the dimensions of the sign holder.

Specifications

- Mount Type: Floorstanding
- Assembly Required: Yes
- Style: Modern
- Shape: Rectangular
